

Market Leader eEdge Website

All KW agents have a Market Leader eEdge website, even though most of you are using your provided Placester website. Keep in mind you cannot remove your Market Leader eEdge Website, but you can update that website to the new requirements whether or not you are using it as your main site.

Follow these instructions:

- Login to your mykw.kw.com site
- In the eEdge Control Panel select “new leads” to get to your eEdge dashboard
- Select “account” in the top right of the page
- Select “Website”
- Select “Footer” on the left menu
- Here you will see links that are placeholders for your TREC form links. These are placeholders only and the links need to be updated to be links to your forms.
- Once updated, save.
